THE PEAK OF PERFECTION

Some roofs say more.
About you.
About your style.
About the home that uniquely showcases your life.

Grand Manor says it all with a style and grace that is exceptional from every angle. The luxurious multi-layered laminated shingle replicates the look of slate with the confidence backed by a lifetime warranty.

Your home becomes your castle with one of the heaviest shingles we've ever made. CertainTeed has developed Grand Manor to endure wind, rain and weather of every sort to always look its best, even on the steepest slopes.

GRAND MANOR[®]

striking looks

Deep shadows and random tabs are the secrets behind the design genius in Grand Manor. The result is a shingle with the incredibly authentic depth and dimension of slate. And generations of durability to complete the illusion.

lasting beauty

Our exclusive Super Shingle[®] construction design results in a shingle that, once installed, offers virtually five layers of protection.

Made of the industry's most durable roofing materials, you'll have a roof with unsurpassed defense against the elements.

An important feature, StreakFighter[®] is a special manufacturing process used to protect your shingles from the streaking and discoloration caused by airborne algae.

With Grand Manor on your home, you'll have the assurance of being protected by one of CertainTeed's finest, most durable luxury shingles—and the confidence of knowing that whenever you look up at your roof, you'll see something beautiful.

SAINT-GOBAIN

GRAND MANOR[®] with STREAKFighter[®]

Elegance Defined with Style and Grace

The best of the best.

Some roofs say more about you; about your style; about the home that uniquely showcases your life. Grand Manor says it all with a style and grace that is exceptional from every angle.

Grand Manor is an ideal choice for homes with great steep sloped roofs. Randomly placed tabs have shadow lines that provide the wonderful depth and dimension of a natural slate roof.

specifications

- Two full-size, fiber glass base shingles with randomly applied tabs
- Authentic depth and dimension of natural slate
- Virtual five-layer coverage when applied
- 425 lbs. per square

Integrity Roof System™

A systems approach combines high-performance components – underlayments, shingles, accessory products and ventilation – to make the Integrity Roof System a complete roofing solution. When you choose an Integrity Roof System, you gain the advantage of having CertainTeed as your single manufacturing source to stand behind its roof system components.

WinterGuard®

Waterproofing shingle underlayment prevents leaks from wind-driven rain and ice dams in vulnerable areas.

Roofers' Select® or DiamondDeck®

High-performance underlayment provides a protective water-resistant layer over the roof deck and a secondary barrier against leaks.

Starter Shingles

Starter shingles are designed to work specifically with each different type of CertainTeed shingle for maximum performance.

CertainTeed Shingles

High quality shingles available in a wide variety of styles and colors, covered by the strongest warranty in the business.

Flat Roofs

Flintlastic roofing products are available for flat roof areas.

Hip & Ridge Caps

Accessory shingles are used to finish the hips and ridges of the roof and are designed to complement the appearance of CertainTeed shingles.

CertainTeed Ridge Vents

CertainTeed Ridge Vents combined with sufficient intake vents, such as CertainTeed Intake Vents, are the most effective ventilation system.

easy selection

Add a little accent to your roof.

For a finishing touch to cap hips and ridges, use Shingle Ridge® accessory— available in colors to match your Grand Manor shingles. For the best performance, use CertainTeed High-Performance Starter—the only approved installation alternative to using the shingles themselves.

Color Companion Products™

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in eight colors that match some of the most popular CertainTeed shingles. Ask your contractor for more information.

WARNING: FOR LOW-VOLUME RAIN AND SALT-FOG AREAS
In areas of low-volume rain (defined as insignificant rainfall during 90-day period) and "salt fog," such as parts of the Southern California coastline, copper released by algae-resistant (AR) granules can react with the aluminum in gutters, leading to severe corrosion of the gutters. Therefore, in such regions, it is strongly recommended that aluminum gutters not be used with algae-resistant shingles. Vinyl or copper gutters are recommended.

Lifetime limited transferable warranty, including 10-year SureStart™ protection, is applicable only in the United States, its territories and Canada; for products sold outside these areas, please refer to the International Warranty for specific details and limitations.

NOTE: Due to limitations of printing reproduction, CertainTeed can not guarantee the identical match of the actual product color to the graphic representations throughout this publication.

Your home is a reflection of your lifestyle.

From the way your furniture complements your wall colors to the way your roofline interacts with the landscaping.

 What does your home say about you?

For 350 years, Saint-Gobain has designed and manufactured innovative products and solutions that have improved the lives of people the world over. Nowhere is this legacy truer than with CertainTeed Corporation. For more than 110 years, our company has proudly helped redefine the North American living experience, offering innovative products that turn a house into a home and a building into a dynamic and sustainable sensory experience.

Reaching for the ENERGY STARS.

As a 2014 ENERGY STAR Sustained Excellence recipient for Energy Management,

we are proud of our commitment to designing high quality, sustainable roofing products.

The best formula under one roof. We start with the highest-quality raw materials and add state-of-the-art technology to monitor our manufacturing

process and test our finished products. The result is superior performance from beginning to end.
