CARRIAGE HOUSE™

Luxury Shingles

Shown in Georgian Brick

**CARRIAGE HOUSE™ luxury shingle
perfect pitch in the grand style**

Shown In Black Pearl

SLATED FOR PERFECTION

From the sweep of a Victorian frame to the symmetry of a Colonial gable, the preservation of timeless architecture accented by steeply pitched roofs is a hallmark of the Carriage House luxury shingle.

Carriage House has been painstakingly designed to evoke the unique hand-crafted look that is at home with our heritage. And in line with its contemporary twists. And the level of protection provided by Carriage House's super heavyweight construction makes for a perfect pitch.

conquering the slopes with craftsmanship

architectural vision

Equal measures of craftsmanship and architectural creativity are at play in this shingle. With cut-away corners and wide, dark shadow lines, Carriage House creates a one-of-a-kind look of scalloped-edge natural slate...the perfect roofline for your home.

StreakFighter™ protection

The patented process that protects your investment against streaking and discoloration caused by airborne algae.

super construction

An ingenious construction that combines two full-sized base shingles, four layers of protection, and an oversized 8" exposure. Made of the industry's most durable roofing materials, you'll have a roof that really endures the elements.

The super-heavyweight that offers premium performance and the pride and prestige of scalloped slate is a perfect solution for a steeply-pitched roof. Carriage House luxury shingles. A most unique shingle for a one-of-a-kind home.

tips for selecting a roof

1. Think big – View a full-sized shingle, not just a swatch or sample.

2. Be real – Look at actual houses where the house and roof color combinations are similar to what you’re considering.

3. Watch the light – As you look, notice how colors appear under changing light conditions and at various times of day.

4. Consider the pitch – Look for roofs with a similar pitch to your own. A roof’s pitch affects the way you see its color.

5. Ask your contractor – They might be able to point you to a home where they’ve installed a roof of your style and color.

Integrity Roof System™

A systems approach combines high-performance components – underlayments, shingles, accessory products and ventilation – to make the Integrity Roof System a complete roofing solution. When you choose an Integrity Roof System, you gain the advantage of having CertainTeed as your single manufacturing source to stand behind its roof system components.

WinterGuard™

Waterproofing shingle underlayment prevents leaks from wind-driven rain and ice dams in vulnerable areas.

Roofers Select™ or DiamondDeck™

High-performance underlayment provides a protective water-resistant layer over the roof deck and a secondary barrier against leaks.

Starter Shingles

Starter shingles are designed to work specifically with each different type of CertainTeed shingle for maximum performance.

CertainTeed Shingles

High-Quality shingles available in a wide variety of styles and colors, covered by the strongest warranty in the business. Flintlastic roll roofing products are also available for flat roof areas.

Hip & Ridge Caps

Accessory shingles are used to finish the hips and ridges of the roof and are designed to complement the appearance of CertainTeed shingles.

CertainTeed Ridge Vents

CertainTeed® Ridge Vents combined with sufficient intake vents, such as CertainTeed® Intake Vents, are the most effective ventilation system.

We've put green thinking behind our shingle and environmentally sound manufacturing ahead of standard industry practices to produce a product line that is green and growing.

CertainTeed is committed to resource conservation. Our roofing manufacturing facilities recycle close to 90% of the production waste into asphalt materials used for the construction of roads. We also integrate recycled content into many of our packaging needs including corrugated rolls and kraft paper.

They're small steps in a big world. But we're green and growing everyday. It's a commitment we take seriously at CertainTeed.

not sure which color to pick?

ColorView™ is CertainTeed's interactive tool to help you visualize product style and color options. Using it is easy. Just go to www.certainteed.com/colorview.

easy selection

What's behind our #1 rating?

Builders and remodelers across America know certain things to be true of CertainTeed. For starters, we've been in the roofing business for over 100 years, we have thousands of satisfied homeowners. The process of building that satisfaction begins the moment you turn to us.

CertainTeed offers you the broadest range of color and style choices. But you'll see it's not style over substance. You'll get a roof that's made from the highest quality materials and backed by a strong warranty program. It's our promise to you: quality made certain, satisfaction guaranteed.

Add a little accent to your roof.

For a stylish finishing touch to cap hips and ridges, use Shingle Ridge™ accessory—available in colors to match your Carriage House shingles.

long-term protection

Reaching for the ENERGY STARS.

As a 2013 ENERGY STAR® Sustained Excellence recipient for Energy

Management, we are proud of our commitment to designing high quality, sustainable roofing products.

Color Companion Products™

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in eight colors that match some of the most popular CertainTeed shingles. Ask your contractor for more information.

Lifetime limited transferable warranty, including 10-year SureStart™ protection, is applicable only in the United States, its territories and Canada; for products sold outside these areas, please refer to the International Warranty for specific details and limitations.

WARNING: FOR LOW-VOLUME RAIN AND SALT-FOG AREAS

In areas of low-volume rain (defined as insignificant rainfall during 90-day period) and "salt fog," such as parts of the Southern California coastline, copper released by algae-resistant (AR) granules can react with the aluminum in gutters, leading to severe corrosion of the gutters. Therefore, in such regions, it is strongly recommended that aluminum gutters not be used with algae-resistant shingles. Vinyl or copper gutters are recommended.

NOTE: Due to limitations of printing reproduction, CertainTeed can not guarantee the identical match of the actual product color to the graphic representations throughout this publication.
